

LED Lightening Equipment

ALTON *RAY* Co.

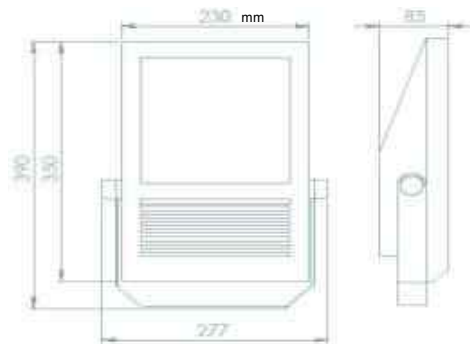

Projector LL18W

Technical Specifications

- Light intensity : 900 Lm
- It has 18 LEDs with power of 1 watt.
- Energy consumption : 22 watt
- It has a switching circuit with 95% efficiency.
- Power factor > 90%
- LEDs life : 100.000 hours
- Projectors housings are made aluminum materials which are covered by electrostatic paints.
- They are available in blue, green, red, white and rainbow colors.
- Weights : 2.7 kg
- Its glasses have resistance against heat.
- It has IP65
- Input voltage : 170 – 240 VAC
- Guaranty : 1 year

Dimension

Long life time

Low Consumption

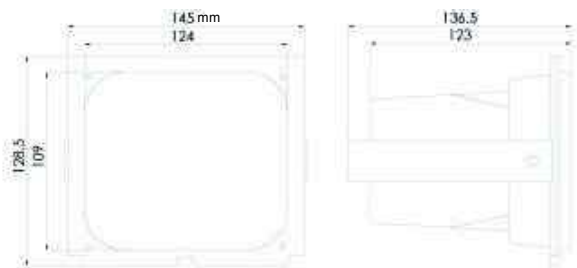

Projector LLA6W

Technical Specifications

- Light intensity : 300 Lm
- It have 6 LEDs with light intensity of 1 watt
- Energy consumption : 8 watt
- It has a switching circuit with 95% efficiency.
- Power factor > 90%
- LEDs life : 100.000 hours
- It is made of polycarbonate materials.
- There are in white, blue, green, red colors.
- Weights : 0.5 kg
- Anti UV
- It has IP65
- Input voltage: 170 – 240 VAC
- Guaranty : 1 year

Dimension

Long life time

Low Consumption

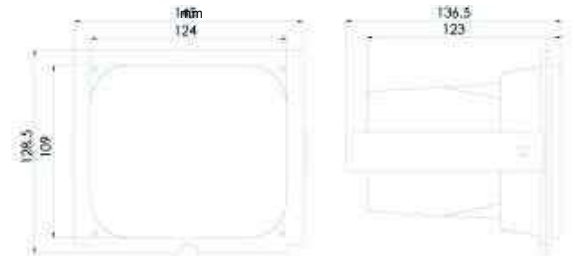

Projector LLB6W

Technical Specifications

- Light intensity : 300Lm
- It has 105 LEDs with light intensity of 6000 mcd
- Energy consumption : 8 watt
- It has a switching circuit with 95% efficiency.
- Power factor > 90%
- LEDs life time : 100.000 hours
- It is made of Poly carbonate materials.
- Weights : 0.5 kg
- It has high resistance against dust, moisture.(IP65)
- Anti UV.
- They are available in white, blue, green, red and yellow.
- Input voltage : 170 – 240 VAC
- Guaranty : 1 year

Dimension

Şemsettin Günaltay Cad
İkbal Apt - No:130 - Daire :
10 - Kat : 3
Erenköy - Kadıköy
İstanbul - Turkey
